Class Parents
Network 2024**

Class: KBT

**Teacher: Mrs Beencke/Mrs
Turnell-Mace**

Welcome

Welcome to the Class Parents Network for 2024.

Our Class Parents Network is a family information network that operates across the school, sharing regular information to all parents regarding school and P & C activities. To do this, all parents and families are invited to sign up to join their Class Network and we seek one person to volunteer as the Class Parent Coordinator for each class (this role could also be shared).

We know that some of you are brand new – either to the school or to the role of Class Parent Coordinator. Others have done this role before, often many times. We welcome you all.

Collecting Names and Contact Details:

This year we are collecting information from parents using a digital (QR code) method. Thanks to COVID-19 we're all now very familiar with the use of QR codes. Please scan the QR

code above for your class to be included in your class parent list. There is a unique code set up for each class and you need to register separately for each of your children for their own individual class.

We know that privacy is a key issue for many families, especially in regards the internet and email communication. Privacy is one of the issues that most often comes up in regard to the Class Parent network. Your information will be accessible only by your Class Parent or P&C members who are undertaking a coordination role for class, committee, activity, or event. The access will be for the purpose of creating a class member list and/or to undertake P&C communications. We will not disclose your personal information to anyone including other parents without your consent unless we are required to by law.

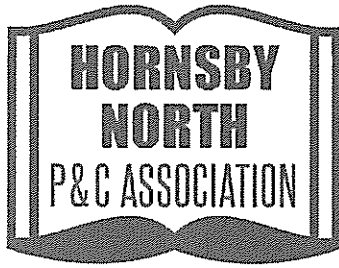

Class Parent Coordinator:

Class Parent Coordinators play an important role in the school. They are the messengers – sharing information via email between the P & C and the families within the school and they assist in the co-ordination of volunteers for school events via email. This is a great volunteer role that just requires some time sending emails. If you would like to volunteer to be the class parent coordinator for your child class, you can do this when you complete the QR form.

Getting in touch with us:

We're also open to hear your ideas and feedback – so if you or someone from your class has an idea or a query, we'll be giving you the opportunity to pass this on in a clearer and easier way. Please get in touch with your Class Parent Coordinator or P & C members below:

Our Class Parents Network is a family information network that operates across the school, sharing regular information to all parents regarding school and P & C activities. To do this, all parents and families are invited to sign up to join their Class Network and we seek one person to volunteer as the Class Parent Coordinator for each class (this role could also be shared).

We know that some of you are brand new – either to the school or to the role of Class Parent Coordinator. Others have done this role before, often many times. We welcome you all.

Collecting Names and Contact Details:

This year we are collecting information from parents using a digital (QR code) method. Thanks to COVID-19 we're all now very familiar with the use of QR codes. Please scan the QR code above for your class to be included in your class parent list. There is a unique code set up for each class and you need to register separately for each of your children for their own individual class.

We know that privacy is a key issue for many families, especially in regards the internet and email communication. Privacy is one of the issues that most often comes up in regard to the Class Parent network. Your information will be accessible only by your Class Parent or P&C members who are undertaking a coordination role for class, committee, activity, or event. The access will be for the purpose of creating a class member list and/or to undertake P&C communications. We will not disclose your personal information to anyone including other parents without your consent unless we are required to by law.

Class Parent Coordinator:

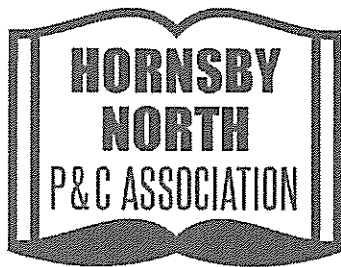

Class Parent Coordinators play an important role in the school. They are the messengers – sharing information via email between the P & C and the families within the school and they assist in the co-ordination of volunteers for school events via email. This is a great volunteer role that just requires some time sending emails. If you would like to volunteer to be the class parent coordinator for your child class, you can do this when you complete the QR form.

Getting in touch with us:

We're also open to hear your ideas and feedback – so if you or someone from your class has an idea or a query, we'll be giving you the opportunity to pass this on in a clearer and easier way. Please get in touch with your Class Parent Coordinator or P & C members below:

Collecting Names and Contact Details:

This year we are collecting information from parents using a digital (QR code) method. Thanks to COVID-19 we're all now very familiar with the use of QR codes. Please scan the QR

code above for your class to be included in your class parent list. There is a unique code set up for each class and you need to register separately for each of your children for their own individual class.

We know that privacy is a key issue for many families, especially in regards the internet and email communication. Privacy is one of the issues that most often comes up in regard to the Class Parent network. Your information will be accessible only by your Class Parent or P&C members who are undertaking a coordination role for class, committee, activity, or event. The access will be for the purpose of creating a class member list and/or to undertake P&C communications. We will not disclose your personal information to anyone including other parents without your consent unless we are required to by law.

Class Parent Coordinator:

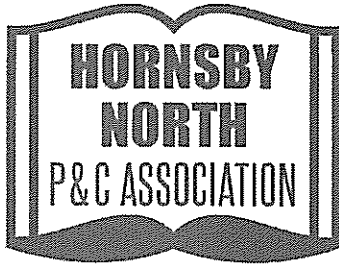

Class Parent Coordinators play an important role in the school. They are the messengers – sharing information via email between the P & C and the families within the school and they assist in the co-ordination of volunteers for school events via email. This is a great volunteer role that just requires some time sending emails. If you would like to volunteer to be the class parent coordinator for your child class, you can do this when you complete the QR form.

Getting in touch with us:

We're also open to hear your ideas and feedback – so if you or someone from your class has an idea or a query, we'll be giving you the opportunity to pass this on in a clearer and easier way. Please get in touch with your Class Parent Coordinator or P & C members below:

Welcome

Welcome to the Class Parents Network for 2024.

Our Class Parents Network is a family information network that operates across the school, sharing regular information to all parents regarding school and P & C activities. To do this, all parents and families are invited to sign up to join their Class Network and we seek one person to volunteer as the Class Parent Coordinator for each class (this role could also be shared).

We know that some of you are brand new – either to the school or to the role of Class Parent Coordinator. Others have done this role before, often many times. We welcome you all.

We know that privacy is a key issue for many families, especially in regards the internet and email communication. Privacy is one of the issues that most often comes up in regard to the Class Parent network. Your information will be accessible only by your Class Parent or P&C members who are undertaking a coordination role for class, committee, activity, or event. The access will be for the purpose of creating a class member list and/or to undertake P&C communications. We will not disclose your personal information to anyone including other parents without your consent unless we are required to by law.

Class Parent Coordinator:

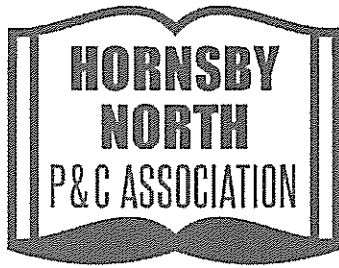

Class Parent Coordinators play an important role in the school. They are the messengers – sharing information via email between the P & C and the families within the school and they assist in the co-ordination of volunteers for school events via email. This is a great volunteer role that just requires some time sending emails. If you would like to volunteer to be the class parent coordinator for your child class, you can do this when you complete the QR form.

Getting in touch with us:

We're also open to hear your ideas and feedback – so if you or someone from your class has an idea or a query, we'll be giving you the opportunity to pass this on in a clearer and easier way. Please get in touch with your Class Parent Coordinator or P & C members below:

Network 2024**

Class: 6SE

Welcome

Teacher: Mrs Simpson / Mr Egarr

Welcome to the Class Parents Network for 2024.

Our Class Parents Network is a family information network that operates across the school, sharing regular information to all parents regarding school and P & C activities. To do this, all parents and families are invited to sign up to join their Class Network and we seek one person to volunteer as the Class Parent Coordinator for each class (this role could also be shared).

We know that some of you are brand new – either to the school or to the role of Class Parent Coordinator. Others have done this role before, often many times. We welcome you all.

Collecting Names and Contact Details:

This year we are collecting information from parents using a digital (QR code) method. Thanks to COVID-19 we're all now very familiar with the use of QR codes. Please scan the QR code above for your class to be included in your class parent list. There is a unique code set up for each class and you need to register separately for each of your children for their own individual class.
